**Dino-Car**  
**Stress Remover, Energy Supplier & Liver Stimulant**

**Composition:** Each 1 ltr contains:
- L-carnitine : 25 gm
- Betaine HCL : 20 gm
- Vitamin B₃ : 100 mcg
- Choline chloride : 25 gm
- D-Sorbitol : Q.S.
- Excipients : Q.S.

**Benefits:**
- Provides energy.
- Helps to improve liver functions.
- Improves feed digestion & feed conversion ratio.
- Prevents & treats all kinds of stress, caused by diseases, transport, high temperature, vaccination etc.

**Dosage:**
- Cow, Horse, Camels: 30-50 ml/animal/day for 5-10 days.
- Calf, Foal: 15-20 ml/animal/day for 5-10 days.
- Sheep, Goat: 3-10 ml/animal/day for 5-10 days.
- Lamb, Kid: 3-10 ml/animal/day for 5-10 days.
- Pig (adult): 15-40 ml/animal/day for 5-10 days.
- Piglet: 1-2 ml/animal/day for 5-10 days.

**Poultry:** 1-2 ml/litr of drinking water for 5 days.

(or) as advised by a veterinarian.

**Presentation:** 1 Ltr.

---

**Dinocal Vet**  
**Calcium, Phosphorus & Vitamin D₃ preparation**

**Composition:** Each 10 ml contains:
- Calcium : 200 mg.
- Phosphorus : 100 mg.
- Vitamin D₃ : 1000 I.U.
- Vitamin B₁₂ : 20 mcg
- Manganese : 10 mg.
- Vitamin C : 20 mg.

**Benefits:**
- Improves milk production.
- Helps for better bone and skeletal strength.
- Prevents complications like dystocia, retention of placenta, metritis, mastitis etc.
- Increases growth and body weights of calves.
- Improves health, vigour, appetite, bone strength and growth of dogs.

**Dosage:**
- Cattle & Buffaloes / Horses: 100 ml/day / 7-10 days in a month.
- Calves: 40 ml/day / 7 days in a month.
- Dogs: 5 ml/day.
- Sheep & Goats: 10 ml/day – 7 days in a month.

(or) as advised by a veterinarian.

**Presentation:** 1 Ltr.
**Dino-Diger**

Rumen Tonic Preparation for Ruminants

**Composition:** Each kg contains:
- Rumen extract (stabilized): 20 gm
- Dried Yeast: 50 gm
- Calcium phosphate (Dibasic): 24 gm
- Sorbitol: 20 gm
- S. boulardii: 1x10^9 cfu
- B. subtilis: 1x10^9 cfu
- L. acidophilus: 1x10^9 cfu
- E. faecium: 1x10^9 cfu
- Excipients: Q.S.

**Advantages:**
- It improves the appetite.
- It maintains the normal intestinal flora, which helps to improve the digestion & prevents the diarrhea, enteritis or digestive disorders etc.
- Prevents & controls impaction, indigestion, acidosis etc.
- Prevents & treats diarrhea, impaction, indigestion in calves.

**Dosage:**
- Calf, Sheep & Goat: 20-30 gm /animal / day for 5-6 days.
- Cow & buffaloe: 50-60 gm / animal / twice daily for 2-3 days.
  (or) as advised by a veterinarian.

**Presentation:** 1 kg.

---

**Dino-Lact**

Milk & Fat Enhancer

**Composition:** Each 1 kg contains:
- S. cerevisiae (Yeast): 1 x 10^9 cfu
- Lactobacillus casei: 1 x 10^9 cfu
- Lactobacillus plantarum: 1 x 10^9 cfu
- Lactobacillus acidophilus: 1 x 10^9 cfu
- Vegetable fat: 100 gm
- Excipients: Q.S.

**Benefits:**
- Helps to improve milk production in milch animals.
- Helps to improve fat & protein content in milk.
- Provides sufficient energy to maintain general health of the milking animals.
- Helps to decrease harmful & pathogenic bacteria from digestive region.
- Improves symbiotic microflora population, which helps to maintain digestive tract healthy & functional.

**Dosage:**
- Milking cow & buffaloe: 50 gm /animal twice daily for 8-10 days
  (or) as advised by a veterinarian.

**Presentation:** 25 kg Drum.

**Dino-Milk**

To Improve Milk Yield & Fat %

**Composition:** Each kg contains:
- Calcium: 32 %
- Phosphorus: 8.67 %
- Vegetable fat: 10%
- Zinc: 2150 mg
- Iron: 1275 mg
- Copper: 400 mg
- Cobalt: 60 mg
- Amino acids: 8 gm
- Asparagus racemosus: 60 gm
- Leptadenia reticulate: 40 gm
- Vitamin A: 500,000 IU
- Vitamin E: 350 IU
- Live yeast culture: 5 gm
- Lactobacillus culture: 2x10^9 cfu
- Excipients: Q.S.

**Advantages:**
- Specially formulated to improve milk production & fat % specially for dairy animals.
- It contains highly concentrated essential ingredients like Minerals, Vegetable fat, vitamins, Amino acids, Probiotics & Herbs to improve milk production.
- Helps to improve fat % in milk.
- Useful for high milk yield breeds of cows & buffaloes.

**Administration:** During lactation period:
- Cow & Buffaloe: 30-40 gm per animal daily
  (or) as advised by a veterinarian as per the requirement of animal.

**Presentation:** 1 kg.
**Dino-Min Forte**  
Cattle Mineral Mixture with Vitamins, Amino Acids & Yeast Culture

**Composition:** Each kg. contains
- L-Lysine: 4.4 gms.
- DL Methionine: 2.2 gms.
- Sulphur: 0.7 gms.
- Potassium: 100 mg.
- Sodium: 6 gms.
- Selenium: 10 mg.
- Vitamin A: 6,00,000 I.U.
- Vitamin D₃: 6,000 I.U.
- Vitamin E: 200 mg.

Benefits:
- Improves milk yield.
- Helps for better growth.
- Increases health and immunity.
- Better fertility in females.
- Better strength in bullocks.
- Enhances additional stress bearing capacity.

Indications: Low milk yield, advanced pregnancy, peak lactations repeat breeders, young calves, poor growth, during antibiotic treatments etc.

**Dosage:** Continuously or 10 days in each course.

- **Cow & buffaloes:** 30 gms.
- **Calves:** 10 gms.  
**Presentation:** Pigs: 20 gms. 1 kg.

In feed: 10 kg./ton of feed.  
(or) as advised by a veterinarian.

---

**Lacter Powder**  
To Maintain Health & To Increase Milk Production

**Composition:** Each kg contains:
- Bacillus coagulans: 1 Billion cfu
- Lactobacillus acidophilus: 1 Billion cfu
- Bifidobacterium longum & bifidum: 1 Billion cfu
- Enterococcus faecium: 1 Billion cfu
- Bacillus subtilis: 1 Billion cfu
- Saccharomyces cerevisiae: 1 Billion cfu
- Propionibacterium: 1 Billion cfu
- Aspergillus oryzae: 1 Billion cfu
- MOS: 5000 mg
- Excipients: Q. S.

Benefits:
- It stimulates the growth of beneficial bacteria in rumen & maintains balance of micro-flora in rumen.
- Improves milk production & milk fat.
- Improves appetite, digestion & nutrient absorption available in feed.
- Enhances the immunity & helps to reduce diseases incidences.

**Dosage:**
- Lactating cow & buffaloes: 30 to 40 gm/animal daily for 10 days in a month.
- (or) as advised by a veterinarian.

**Presentation:** 1 kg.

---

**Dionamic Vet**  
Laxative & Purgative

**Composition:** Special selective herbal preperation having functional properties as anti toxic, digestantant, stomachic, appetizer and finally laxative and purgative. Special salts are added to aggrevate the action quickly and smoothly.

Benefits:
- Regulates bowl movements and helps for better bowel evacuation.
- Binds toxins selectively and expels out through dung.
- Most suitable in the conditions like bloat, colic, constipation and restlessness postures etc.
- Brings back the intestinal motility to normal level.

**Dosage:**
- Add in lukewarm water & administer orally:
  - Cattle: 10 ml per 300 ml of drinking lukewarm water per animal.
  - Calves, Sheep & Goat: 5 ml per 150 ml of drinking lukewarm water per animal.
  - (or) as advised by a veterinarian.

**Presentation:** 1 kg.

---

**Purge Min**  
To Prevent & Treat Bloat

**Composition:** Each 1 ltr contains:
- Silicon Resin: 100 gm
- Mentho: 50 gm
- Ginger: 50 ml
- Excipients: Q. S.

Benefits:
- Prevents froth production & eliminates the gas from the digestive tract.
- Animal gets quick relief from the acute/chronic bloat.
- It maintains & improves rumen functions.

**Dosage:**
- Add in lukewarm water & administer orally:
  - Cattle: 10 ml per 300 ml of drinking lukewarm water per animal.
  - Calves, Sheep & Goat: 5 ml per 150 ml of drinking lukewarm water per animal.
  - (or) as advised by a veterinarian.

**Note:** In severe case administer twice of above dose.

**Presentation:** 100 ml.
Bio-Dexer
Probiotics with Dextrose

Composition: Each kg contains:
- Lactobacillus plantarum : 1x10^9cfu
- Lactobacillus bulgaricus : 1x10^9cfu
- Lactobacillus rhamnosus : 1x10^9cfu
- Lactobacillus acidophilus : 1x10^9cfu
- Bifidobacterium bifidum : 1x10^9cfu
- Streptococcus thermophilus : 1x10^9cfu
- Enterococcus faecium : 1x10^9cfu
- Aspergillus oryzae : 1x10^9cfu
- S. cerevisiae : 1 x 10^9cfu
- Carrier : Q.S.

Benefits:
- It promotes growth & enhances performance.
- Improves the feed efficacy & feed digestion.
- Maintains the beneficial microflora in the digestive tract.
- Helps to prevent diarrhea.
- Helps to reduce stress.

Dosage: Livestock
Large animals: 50 gm /animal twice daily for 5-7 days.
Small animals: 15-20 gm/animal twice daily for 5-7 days.

In feed: 1 kg per ton of feed.
(or) as advised by a veterinarian.

Presentation: 1 kg tin.

Tissue-Care
Increase Process of Tissue Rebuilding

Composition:
Each bolus contains:
- Vitamin A : 13000 IU
- Vitamin E : 250 IU
- Zinc sulphate : 145 mg
- Bromelain : 150 mg
- Arginine : 60 mg
- D-Biotin : 100 mcg
- DL-Methionine : 500 mg
- L-Lysine HCL : 500 mg
- Aloe vera : 50 mg
- Excipients : Q.S.

Advantages:
- It helps to improve the process of tissue healing in injury, fresh wound, chronic wound, skin damages etc.
- It enhances the tissue repairing process.
- It effective in all diseases where extensive damages to tissues.
- Useful in cases like Mastitis, Chronic wounds, FMD lesions, Metritis, Post surgical therapy etc.

Dosage:
Large animals: 2 bolus daily for 4-5 days.
Small animals: 1 bolus daily for 4-5 days.
(or) as advised by a veterinarian, depends upon condition.

Presentation: 1 x 4 x 10s

Repro V Min
Improves Reproductive Performance

Composition:
Each bolus contains:
- Vitamin A : 12800 IU
- Vitamin E : 200 mg
- Asparagus racemosus : 50 mg
- Zinc : 45 mg
- Copper : 95 mg
- Iron : 200 mg
- Iodine : 50 mg
- Cobalt : 75 mg
- Manganese : 80 mg
- Selenium : 0.5 mg
- Excipients : Q.S.

Advantages:
- Improves reproductive performance in females. Improves fertility & conception rate.
- Helps to correct reproductive disorders like repeat breeding, anoestrus etc.

Dosage:
Cows & Buffaloes:
2 bolus daily for 7-8 days.
Sheep & Goat: ½ bolus daily for 7-8 days.
(or) as advised by a veterinarian, depends upon requirement.

Presentation: 1 x 4 x 10s

Lacto-H
Minerals, Vitamins, Enzymes with Yeast & Essential Herbs to Increase Milk Production and Prolong the Lactating Period.

Composition:
Each 20 gm D-CAL-BO bolus contains: Minerals, Vitamins, Enzymes with Yeast & Essential herbs in most suitable proportions.

Benefits:
- Improves the milk production and increases lactating period, in dairy animals.
- It improves the feed efficiency, digestibility & immunity.

Administration / Dosage:
For Milking Cows & Buffaloes:
1 bolus daily for 10 days.
Repeat above course, after 10 days.

Presentation: 5 x 2 x 1s
